

## ENVIRONMENTAL POLICY

### Purpose and Scope

Tegnatia Enerji Üretim San. ve Tic. A.Ş. is a corporation dedicated to offering the highest quality services in project development, Turnkey construction and long-term Maintenance and Repair for renewable solar power projects by keeping up with innovative technologies and changing trends in the industry.

We do our best to meet the requirements of environmental regulations, protect the environment from potential negative impacts and achieve a better performance in all our business operations.

### Our Commitments

We are committed to:

- Evaluate the potential environmental impacts of our operations at the beginning of work,
- Reduce the negative impacts on the environment and prevent them at their source to the extent possible,
- Fulfill our environmental and compliance obligations arising from the applicable national and international legal regulations,
- Achieve our zero environmental accident target along with all our employees, sub-contractors and suppliers,
- Train our employees on environmental matters, improve their competencies and provide training to the relevant parties where necessary,
- Contribute to improving the environmental performance of our suppliers,
- Take the matters related to protection of biodiversity, climate change and carbon footprint into consideration,
- Prioritize waste management and recycling matters,
- Remain dedicated to protecting nature and making effective use of our resources,
- Perform annual management reviews on environmental matters in order to promote continuous improvement.

### Enforcement and Effectiveness

This policy is issued on 29.03.2024 upon the approval of the Member of Board of Directors. It shall be regularly reviewed every year and updated whenever any revision is deemed necessary. The latest versions of our policies are e-mailed to all employees and published on our corporate website for the relevant stakeholders.
